Introduction

Established in 2008, Axxess Marine offers full service global communication services with worldwide customer care.

We are proud to present Mediterranean, Caribbean, The Americas & Global coverage.

Our powerful online portal allows clients to activate and deactivate their Axxess Marine SIM cards, VSAT plans, view data usage, signal strength and account status anytime, anywhere. Further, the connectivity allows our

teams to provide best in class customer service in real time, no matter where our clients are.

Over 1200 super yacht vessels receive the Axxess Marine Global SIM Package (\$125 value) free of charge. The SIM pack is kept onboard and used in conjunction with the Axxess Marine client portal to create a complete communication solution tailored to each individual client's unique needs based on routing, usage patterns and anticipated data demand. ■

Services & Support

Axxess Marine is the industry leading marine communications solutions provider, offering a wide range of products and services with over 8 years of experience.

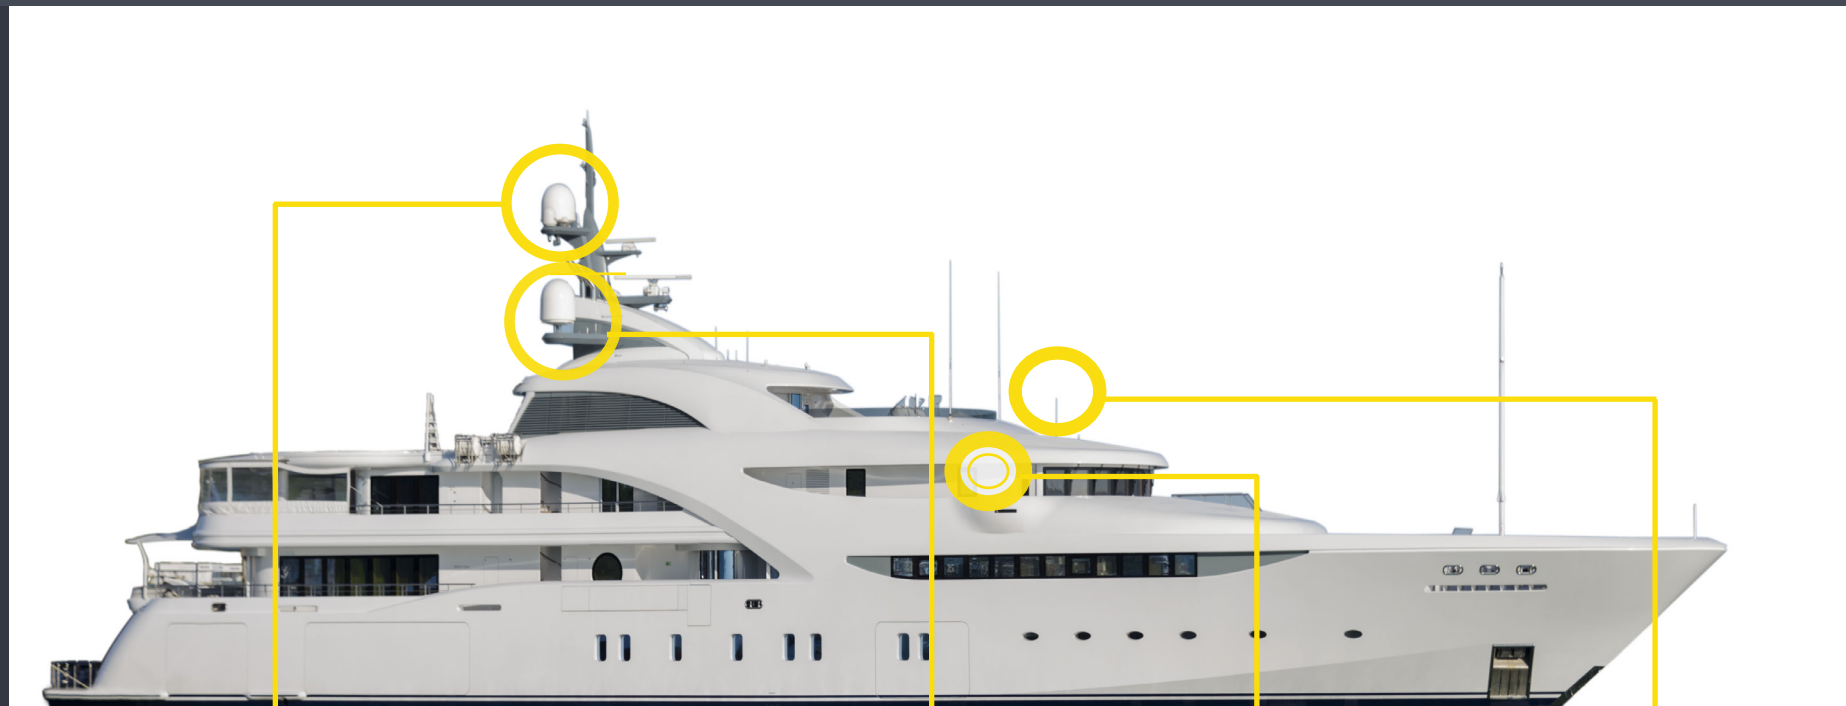

We offer VSAT solutions for high-speed internet connectivity at sea, data network design and implementation, project management and consulting.

Axxess Marine's team of highly skilled and certified IT and communications engineers provide turnkey solutions for design, installation and operational phases for all potential aspects encountered, as well as round the clock support.

Axxess Marine specializes in start to finish communications solutions - bundled data plans for VSAT & 4G LTE with seamless switching and easy online upgrades and downgrades.

Cutting edge iDirect technology - the next-generation platform powers high bandwidth applications and unleashes the performance of high throughput satellites with unparalleled stability.

In-house teleports & NOCs- Eighteen satellite beams uplinked from our strategically located hubs.

VSAT

- Availability - Always Up
- Speed - Highest MBR
- Flexibility - Unlimited

ONBOARD NETWORK

- WAN controller
- WIFI Network
- Data Management

4G/LTE

- Bundled & Pooled plans
- Global Coverage
- Tier 1 Client support

Highest Consistent MBR available to the Marine industry.

- Dedicated CIR*** (Contracted Information Rate) with a high MBR** (Maximum Burst Rate) allows for more data throughput at higher speeds.
- Average achieved MBR by Axxess Marine clients is 89%

Save time, save money.

- Deactivate VSAT service without penalties or restrictions on length of deactivations.
- Axxess Marine has waved away the contracts and built programming options with clients in mind.
- Same day activation from Dynamic Suspension* to fully operational VSAT service with the click of a button.
- No VSAT engineer reactivation service visits necessary.

Axxess Marine SIM booklet.

We offer the full booklet with all the needed SIMs covering Europe - Caribbean - USA. Global and country specific SIMs upon request. Fully customized, tailor-made programs available. Please contact the Axxess Marine Team for more details.

VSAT Global coverage.

Region 1 Ku-Band coverage with automatic beam switching (ABS) for regional use.

Axxess Marine Portal with Data Management.

All Axxess Marine clients have access to their online account on the Axxess Marine customer portal from anywhere in the world. All accounts are private and personally managed, and include tools for WAN controls , account information, online billing, usage history and performance.

What is Dynamic Suspension? (DS*)

Axxess Marine has developed technology that allows vessels to activate, upgrade and suspend their VSAT services as they need them. Axxess Marine calls it Dynamic Suspension™, you'll call it brilliant.

4G LTE Tier ONE coverage.

Tier ONE supported data services at the highest possible speeds offering online activation process with data usage reporting.

Onboard Media Caching.

MediaFast is Axxess Marine's supercharged content caching solution, designed with high service demand in mind, it downloads and accelerates video, iTunes U, iOS updates, app downloads, and other content for uninterrupted usage anytime. MediaFast can prefetch content during off-peak hours saving connectivity costs and reducing network burden during busy times, keeping your onboard network fast and reliable.

24/7 Amazing Customer Support.

Axxess Marine Client Service Teams and data center Engineers offer support around the clock. In partnership with Speedcast, Axxess Marine provides NOC & email support 24/7 365 days a year.

VSAT & 4G Bundle

VSAT & 4G LTE Bundle

Axxess Marine unveiled a revolutionary new VSAT program that enabled clients to deactivate, activate, upgrade and suspend their VSAT services... but we're just getting started.

Axxess Marine VSAT is a demand-based service.

The advantage? Use VSAT and pay for VSAT only when you need it.

Peek your interest? Axxess Marine is the only marine communication provider able to offer this service in association with Speedcast - the leading global Satellite Solutions Provider.

Why? Because we don't think our clients should have to pay for VSAT unless they are using their VSAT.

Quality of service? Second to none.

Bandwidth? Massive.

NOC service centers? Global locations, making your service a priority 24/7.

Client Commitment? The same amazing, real-time customer service you have come to know and expect from Axxess Marine.

The savings? Huge.

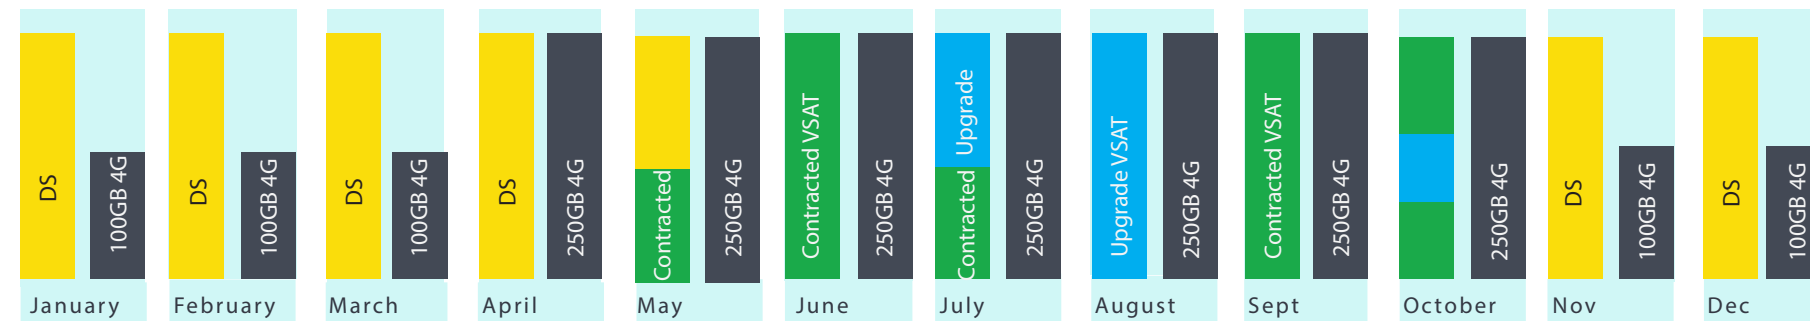

Looking for a sweet deal on VSAT? We want to tell you more...
